Actual result

Actual result:The response contains two sentences in Brazilian Portuguese and correctly preserves the participants, pending approval, and conditional delivery to the client.However, “Camila revisou e corrigiu o relatório após Bruno identificar dois valores incorretos” places both Camila's review and correction after Bruno identified the errors.Expected result:Preserve the original sequence: Camila reviewed the report before sending it to Bruno; Bruno then identified two incorrect values; Camila subsequently corrected them.Assessment:Criteria 1–6: Passed.Criterion 7: Failed due to an unsupported change in event chronology.Final result: Failed.
